FOCAL Clear Professional

These open

circum-aural headphones incorporate a remarkable evolution of the driver and an extremely open design aiming to make the headphones disappear, for the benefit of the sound. Clear Professional headphones are so comfortable that you forget you are wearing them and the listening experience feels like studio monitors. Its M-profile Aluminium/Magnesium dome has a new copper coil which provides total dynamic respect over the entire audio spectrum, with an extremely well defined and always controlled bass. At the same time, the very

low-mass speaker moving parts mean that these headphones reproduce the finest details in the higher frequencies.

Turning to the headband and yokes, their design ensures that the headphones are in full contact with the head, for optimal comfort. The new generation of perforated microfiber ear cushions provides an extremely open design.

CLEAR PROFESSIONAL

Clear Professional are open-back circum-aural headphones. They introduce an evolution of the Focal totally openback full-range driver. Their M-profile Aluminum/Magnesium dome has a new copper coil. Combined with the absence of vents, this provides total dynamic respect over the entire audio spectrum, with an extremely articulated and always controlled bass. The very low-mass driver moving parts mean that these headphones reproduce the tiniest details in the higher frequencies. Turning to the headband and yokes, their design ensures that the headphones are in total contact with the head, for optimal comfort. The new generation of perforated microfibre ear cushions provide an extremely open design. Clear Professional headphones are so comfortable that you forget you are wearing them and the listening experience, the equal of the best monitor speakers, takes over. Clear Professional headphones take their place as a key staple for the most demanding professionals. These professional headphones have just one, unique objective: offer the ultimate reference aiming to secure the work highest transfer quality.
