

FOCAL DOME 1.0 WHITE

Šifra: 11723

Kategorija proizvoda: Surround Zvučnici

Proizvođač: Focal

Cena: 22.680,00 rsd

brilliantly and eloquently the true Focal sound. It will be the music source for every room from 320ft² to 430ft².

CLEVER MIX BETWEEN DESIGN AND TECHNOLOGY

Dôme design is functional, sophisticated but refined. Dôme is the balance between aesthetic and technology. Its round shape is ideal to avoid internal resonances that distort the purity of timbers. Observe it well, everything is smooth, no visible screw, even the complicated system of joints on pivot is perfectly integrated and beyond suspicion. Imagined as a swivelling « sound spot », Dôme becomes an ideal music source for each and every room from 320ft² to 430ft².

EXCLUSIVE FOCAL TECHNOLOGIES

Dôme Polyglass, the original satellite loudspeaker of the range, is made of a Polyglass® cone Medium woofer. It ensures neutrality, excellent dynamics and a precise sound image. This version is made of an aluminium/magnesium inverted dome tweeter, other technology developed by Focal.
