

FOCAL SIB EVO 5.1

Šifra: 12243

Kategorija proizvoda: Surround Zvučnici

Proizvođač: Focal

Cena: **91.800,00** rsd

Akcijaska cena važi za gotovinsko i virmansko plaćanje

Focal Sib Evo Base Column

The Sib compact speaker series, since its introduction in 2002, has a reference in the home theater world. This system has become a symbol of 5.1 home cinema thanks to its timeless design, which has been trending for almost twenty years. The soundtrack will perfectly fill dialogue and full intensity of action or emotion. All key elements of the film are conveyed with extraordinary clarity and excellent accuracy, giving the viewer the impression that he was in the heart of the action.

Sib is a 'lifestyle' speaker that fits into any interior and lets you effortlessly adjust the volume you are looking for. The sound quality of our Sib speakers, given their size is impressive.

To facilitate the installation of the Sib Evo, extensive research has been carried out, covering even the smallest details: speakers are equipped with a connector system with buttons to facilitate the connection of speakers to the amplifier. There are also double connectors instead of single one for power supply. Each satellite speaker is attached to its base. You can still adjust the slope by +/- 5 degrees, given that the speakers are supplied with the degree of inclination recommended by Dolby. In 5.1 and 5.1.2 home theater systems, the loudspeaker can also be used horizontally, converting the satellite speaker into a center speaker.

Technical Specifications:

- Two-way speaker type
- 5 "(13cm) Polyflex woofer
- 3/4 "tweeter (19 mm)
- Frequency Response (+/- 3dB) From 70 Hz to 25 kHz
- Sensitivity (2.83V / 1m) 90dB
- Nominal impedance of 6 Ohms
- 3.5 kHz crossover frequency
- Recommended power amplifier 25 - 200 W
- Dimensions (H x W x D) 252x162x162mm
- Weight 1.8 kg

Subwoofer active Focal Cub Evo

As with the Sib Evo and Sib Evo Dolby Atmos speakers, the Cub Evo touches the same design codes as our subwoofers in the 'lifestyle' series. Equipped with an 8-inch diaphragm and 200W class D amplifier, it features an MDF construction and Matt Black finish (black mat). In order to meet the requirements imposed by the listening room, the Cub Evo has all the usual features of a Focal subwoofer: switch, phase switch, ON / OFF auto power and LFE input. The 8-inch Polyflex diaphragm and class D amplifier allow the Cub Evo to deliver powerful, controlled bass with up to 35Hz bandwidth. Cub Evo is the perfect companion for Sib Evo, but it is also suitable for all types of home theater systems.

Technical Specifications:

- Polyflex 8 1/4 "woofer (21 cm)
- Frequency Response (+/- 3dB) 35Hz - 150Hz
- Cut-off frequency (-6dB) 30 Hz
- RCA input
- phase switch 0 ° / 180 °
- Class D amplifier with 200W power
- Power Mode Enabled / Autopower (0.5W)
- Dimensions (W x D x D) 305x282x299mm
- Weight 8 kg
