[Recenzija What HI-FI](#)

This monitoring speaker establishes itself as a reference thanks to the precision of the stereo image, its capacity to reproduce each of the micro details of the audio signal , as well as unconditional respect of the original dynamics.

One of the major SM9 innovations lies in the fact of offering 2 monitoring speakers in only one and unique cabinet. The SM9 is thus composed of 2 monitors: a 3 way monitor and a 2 way monitor.
