

FOCUSRITE CLARETT 4PRE USB

Šifra: 12698

Kategorija proizvoda: Audio Interfejsi

Proizvođač: Focusrite

Cena: 62.040,00 rsd.

The Clarett 4Pre USB is equipped with four front panel mic/line inputs, two of which have high-headroom instrument inputs for recording hot pickups without distortion. Each mic pre has a separate gain knob with a Gain Halo meter that makes it easy to set the correct input level. The interface also provides two line level outputs, two monitor outputs with anti-thump technology, MIDI I/O, stereo S/PDIF I/O, and eight channels of ADAT inputs to expand your setup. The front panel features two 1/4" headphone outputs with independent volume controls. A pair of +48V phantom power switches allow you to turn on phantom power for condenser microphones on channels 1 & 2 and 3 & 4 respectively.

The Clarett 4Pre USB offers a comprehensive software package that includes the Focusrite Red Plug-In Suite with accurate models of the Red 2 EQ equalizer and Red 3 Compressor, the Softube Time and Tone Bundle with reverb, delay, mastering, and distortion plug-ins, a Loopmasters library with 2GB of royalty-free samples, and more. Also provided is the Focusrite Control software that enables you to configure your routing and monitor mixes from Mac and Windows computers, or iPad, iPhone, and iPod touch devices.

Key Features

Four Air-enabled mic preamps emulate the sound of the company's original ISA mic preamp

Low-noise (-128 dB EIN) mic preamps with low distortion and up to 118 dB dynamic range
