C-PLUS SCIENCE

JEM C-Plus Haze Fluid represents decades of engineering studies and proven science to find the best combination of optical performance and fluid efficiency. C-Plus Haze Fluid is designed to have tight molecular structure with a medium rate of dispersion and high operating efficiency.

MARTIN HERITAGE

For 30 years, the Martin brand has been the leading choice of professional lighting designers, rental and production houses, and installers across the global architectural, commercial, and entertainment lighting markets. The JEM series, a founding family of products by Martin, is bringing its industry-leading excellence in atmospheric effects to new audiences by manufacturing premium products with a die-hard dedication to quality assurance and our customers.

PREMIUM EFFECTS FLUIDS BY MARTIN

Martin fluids are produced at our state-of-the-art, semi-automated fluid production facility in the United Kingdom. A virtually sterile environment is our guarantee of a pure and precise product that delivers the same effect over and over again. This means that Martin fluid never comes in contact with the environment, or humans, thereby ensuring a 100% bacteria free and sterile fluid. Our production facility is ISO 9001 accredited, an internationally recognized standard of quality in manufacturing standards, documentation and administrative procedures ensuring superior quality and safety of the materials being used in our fluids. Nowhere else in the industry will you find the same attention to detail, safety and environmental consciousness. Martin fluids are also widely available throughout the world ensuring your show will go on.
