THE INDUSTRY STANDARD FOG FLUID
JEM Pro-Fog Fluid is the industry standard in professional fog fluid. This water-based fog fluid is the benchmark choice of professional lighting and effect designers around the world striking a textbook balance between color, dispersion and density. JEM Pro-Fog Fluid is the fluid more artists rely on night after night for a flawless performance when uniform consistency is crucial. When used in combination with a JEM brand fog machine the effect will be simply stunning.

MARTIN HERITAGE
For 30 years, the Martin brand has been the leading choice of professional lighting designers, rental and production houses, and installers across the global architectural, commercial, and entertainment lighting markets. The JEM series, a founding family of products by Martin, is bringing its industry-leading excellence in atmospheric effects to new audiences by manufacturing premium products with a die-hard dedication to quality assurance and our customers.

PREMIUM EFFECTS FLUIDS BY MARTIN
Martin fluids are produced at our state-of-the-art, semi-automated fluid production facility in the United Kingdom. A virtually sterile environment is our guarantee of a pure and precise product that delivers the same effect over and over again. This means that Martin fluid never comes in contact with the environment, or humans, thereby ensuring a 100% bacteria free and sterile fluid. Our production facility is ISO 9001 accredited, an internationally recognized standard of quality in manufacturing standards, documentation and administrative procedures ensuring superior quality and safety of the materials being used in our fluids. Nowhere else in the industry will you find the same attention to detail, safety and environmental consciousness. Martin fluids are also widely available throughout the world ensuring your show will go on.
