

KEF Ci160TR 2way - Plafonski zvučnik

Šifra: 10902
Kategorija proizvoda: HI-FI Ugradni Zvučnici
Proizvođač: KEF

Cena: 41.880,00 rsd

Boasting the latest incarnation of our formidable 4.5in. mid/bass T Series driver and powerful 1in. tweeter, the ultra-slim Ci-T Series speakers open up new possibilities for enjoying KEF's uncompromised sound quality where space above the ceiling is at a premium. Requiring less than 36mm of mounting depth, the Ci160TR fits snugly in very narrow ceiling spaces and is therefore specified for demanding applications such as today's luxury high-rise apartments or your music system.

<36mm mounting depth allows fitment to very restricted cavities

Ultra-low profile LF unit with excellent bass extension.

Vented tweeter with KEF's unique 'tangerine' waveguide for natural HF response and wide, even dispersion.

Rigid flat diaphragm assures clean upper bass and mid-range response.

Paintable Ultra-Thin Bezel (UTB) and magnetic grille to blend unobtrusively with décor.

Fast, versatile installation on virtually any surface via dogleg or direct screw fastening.

Nominalna impedancija	8 Ohm
Osetljivost	87dB (2.83V/ 1m)
Frekventni opseg	110Hz - 24kHz (± 6 dB) otvoreni zadnji
Preporučena snaga pojačala	10-100W

Dimenzije proizvoda (H x Š x D)	Prečnik: 234,6 mm (9,24 inča) Dubina: 40 mm (1,57 inča)
Dimenzije izreza (h x š)	196mm (7.71 in.)
Debeliina montaže	Debljina plafona (maksimalno): 26 mm (1,03 in.) Debljina plafona (minimalno): 9 mm (0,36 in.)
Dubina montaže od površine	36 mm (1,42 in.)
Opcioni okvir za grube radove	RIF160R
Opciono kućište sa zadnje strane	RNC160R
Neto težina	1kg
Jedinica za merenje	Kom
Preuzimanje	Priručnik, Individualni Specifikacioni List, Brošura o arhitektonskim zvučnicima, Specifikacioni List Grupe proizvoda, Tabela minimalne zapremine kabineta, Šablon za izrez, Podaci EASE GLL, Tehnički crtež proizvoda, Preglednik za odabir i podešavanje, Vodič za arhitektonske dodatke za zvučnike
