

KEF LS50

Šifra: 8099

Kategorija proizvoda: Bookshelf Zvučnici

Proizvođač: KEF

Cena: **47.940,00** rsd

Raymond Cooke (BBC inženjer elektronike, tehnički direktor Wharfedale-a) i poslovni saradnici, osnovali su kompaniju KEF Electronics Ltd., sa namerom da prave inovativne zvučnike koristeći najnovije materijale i tehnologije. Osnovana je u Kentu 1961. godine, na imanju nekadašnje kompanije Inženjerstva i Livnice (Kent Engineering and Foundary) a odakle je "KEF" i dobio ime. Zahvaljujući stalnom eksperimentisanju sa novim materijalima i tehnologijama KEF zvučnici su uvek imali fantastična akustična merenja i mogli su da reprodukuju snimke najbliže moguće originalnom zvuku u studiju ili nastupu uživo. Od početka, kao i danas, KEFova inovativnost i kvalitet su neosporni, tako da više od pola veka unazad audiofili širom sveta uživaju u ovim zvučnicima visokih performansi.

Readers' Award - Product of the year

KEF LS50

An innovative concept inspired by the legendary LS3/5a, LS50 mini monitor speaker is designed to bring professional studio monitor concept into the home.

Rarely the case in such a compact design, the LS50 monitor delivers a rich, multi-dimensional 'soundstage experience' that is out of all proportion to its size. Patent-pending acoustic designs, together with state-of-the-art technologies from KEF's latest flagship Blade loudspeaker, provide the ultimate studio experience - even in the smallest of spaces.

Model	LS50
Design	Two-way bass reflex
Drive units	Uni-Q driver array: HF: 25mm (1in.) vented aluminium dome LF/MF: 130mm (5.25in.) magnesium/aluminium alloy
Frequency range (-6dB)	47Hz - 45kHz
Frequency response (± 3 dB)	79Hz - 28kHz
Crossover frequency	2.2kHz
Amplifier requirements	25 - 100 W
Sensitivity (2.83V/1m)	85dB
Harmonic distortion 2nd & 3rd harmonics (90dB, 1m)	<0.4% 175Hz-20kHz
Maximum output	106dB
Nominal impedance	8 Ω (min. 3.2 Ω)
Weight	7.2kg (15.8lbs.)
Dimension (H x W x D) (with terminal)	302 x 200 x 278 mm (11.9 x 7.9 x 10.9 in.)

Colour High gloss piano black

High gloss piano black cabinet with rose gold Uni-Q driver.

Breakthroughs

Creating a small housing capable of delivering such a spacious sound is the result of considerable research and development. In cabinet construction, baffle shaping and port design, LS50 breaks new ground with patent-pending technology. All this is made possible by KEF's leadership in modern research (including techniques such as Finite Element Analysis and Computational Fluid Dynamics*). LS50's unique technology offers by far the cleanest, most accurate studio-grade performance of any mini monitor.

UNI-Q®

LS50 employs revolutionary technology developed for Blade, KEF's latest flagship loudspeaker. Using the very latest Uni-Q driver, specifically designed for this model, LS50 radiates an extremely large listening sweet spot and delivers a remarkably fast, clean sound. And, because LS50 neither adds nor

subtracts a single sound, it's effortlessly natural and accurate too.

Awards

Product of the Year Awards 2013	
"It is rare to find a loudspeaker that offers this combination of clarity and neutrality"

Hi-Fi News & Record Review ‘Outstanding Product’

‘... a cracking little speaker of which KEF’s design engineers must be most proud. Sweetly voiced yet highly revealing of source quality, it surprises and delights in equal measure. And boy does it sound big, defying its compact dimensions.’
