

KEF LS50 LIMITED BLACK EDITION

KEF LS50 LIMITED BLACK EDITION

Šifra: 13139
Kategorija proizvoda: Bookshelf Zvučnici
Proizvođač: KEF

Cena: **47.940,00** rsd

With a innovative design that tips its hats to the BBC monitors of the 70s, they are already one of the most recognized speakers around, with a beautiful high gloss finish and a dead centre rose gold Uni-Q driver they are not a speaker you will forget quickly.

A sound usually only available on larger speakers, these compact mini monitors will do nothing but impress & offers a multi-dimensional soundstage usually unavailable from such a compact design & will hardly miss a beat even when driven hard.

Although a lot different in looks the design principles have been taken from the flagship KEF blade speakers. From the driver technology, baffle design & internal damping these can all be followed back to the blades.

Compact in proportions and yet offering full bodied, stereo sound with 3 dimensional sound staging, the LS50 is a 2-way design featuring a 130mm Uni-Q bass/ midrange driver with a 25mm dome tweeter located in the centre of the Uni-Q unit. A wide frequency range of 47Hz - 45kHz enables the LS50 to captivate the listener on any style of music. 100W power handling with a sensitivity of 85dB/W yields a truly enjoyable and accomplished mini loudspeaker. Piano black finish.

The LS50 not only won What Hifi's 'Best Stand mount' in its price range, but also won their Readers' Award.

EISA said,

'...As promised, the LS50 delivers a remarkably big sound with vivid imaging and a tremendous bass weight that belies its compact dimensions. Shut your eyes and you'll believe you are listening to a far bigger loudspeaker.'

What Hi-Fi said

We're impressed by the speaker's seamless integration, as we are by the way it sets up a huge stereo image populated by securely focused sounds...most importantly these speakers are fun to listen to.

Design	Two-way bass reflex
Drive units	Uni-Q Driver Array: HF: 25mm (1") vented aluminium dome LF: 130mm (5.25") magnesium/aluminium alloy
Frequency range (-6dB)	47Hz - 45kHz
Frequency response (±3dB)	79Hz - 28kHz
Crossover frequency	2.2kHz
Amplifier requirements	25 - 100 W
Sensitivity (2.83V/1m)	85dB

Harmonic distortion 2nd & 3rd harmonics (90dB, 1m)	<0.4% 175Hz-20kHz
Maximum output	106dB
Nominal impedance	8Ω (min. 3.2Ω)
Net Weight	7.2kg (15.8lbs.)
Dimension (H x W x D) (with terminal)	302 x 200 x 278 mm (11.9 x 7.9 x 10.9 in.)

very well
Conclusion: Above all, the very good space and depth mapping and the very good impulse response of the Uni-Q chassis knew to convince the tester. Comment: Top class
Professional audio 01/2015 (19.12.14)

81 points
Conclusion: The detailed, precise and robust sound of the KEF LS50 convinced the testers. Also the bass reproduction is authentic.
AUDIO 03/2013 (2/8/13)

no overall grade
Conclusion: sound level: 86% | Price / Performance: 4 stars
stereo 09/2012 (06.08.12)

very good (1,1)
