KEF Ventura 5 are the intermediate outdoor speakers in the range (in size only), offering greater bass and performance than Ventura 4, yet unlike Ventura 4 or Ventura 6, these are also available in black. On the patio, by the pool, or on your yacht, the Ventura range features three models, all with a UV resistant, high impact ABS cabinet and robust corrosion resistant aluminium bracket & grille system for years of listening pleasure, regardless of your latitude or longitude.

Featuring an integrated mounting bracket with up to 180 degrees of lateral adjustment, optimum placement is simple. Two additional brass threaded inserts on the rear of the enclosure provide even more mounting options. Because they’re from KEF, you can be sure the Ventura range is voiced for clarity and impact specifically for an outdoor setting.

All Ventura models feature a fluid cooled anodised aluminium dome tweeter which delivers smooth high frequency, and an injection moulded, low-distortion long throw woofer with rubber surround for deep, authoritative bass that is sure to pack a punch. Both drivers integrate flawlessly to deliver the sonic perfection KEF is famous for the world over.
