Energy saving high power LED-lamp based on a 8Watt " Sharp® " COB LED.  
Thanks to the special anti-glare lens the lamp looks exactly like a halogen lamp!  
Direct replacement for 230V halogen PAR20 lamps with E27 socket.

**DIMMABLE:** can be used with most dimmers for traditional and halogen lamps!

Pleasant warm white light (3000K) and high CRI-factor

Very long life and VERY LOW POWER consumption compared to halogen lamps!

Beam angle: 24°

High light output: 530 lm

High Power factor: PF >88

No UV or IR radiation

The heat sink can be cut for mounting in certain PAR20 fixtures
