MACKIE Onyx Producer 2x2 - Zvučna kartica

Šifra: 15465

Kategorija prozivoda: USB Zvučne kartice

Proizvođač: MACKIE

Cena: 13.800,00 rsd

MAGKIE OnyxoProducero2x2 - Zvučna kartica

The interface is relatively lightweight at 1.4 lb and provides a 1/4" headphone output, so you can take it with you wherever you go. Mackie's all-metal chassis hardware design aids in this endeavor, giving you a robust, roadworthy chassis for the circuitry inside. Should you monitor through headphones, a direct monitor knob is provided, which mitigates any latency as you record your audio. At minimum value, the knob ensures that you hear your direct input from the preamps. At

maximum, you'll hear the signal as it's routed through the DAW. Use the knob to blend between the two extremes if you wish. The unit is designed to connect to your Mac or Windows computer over USB, and is bus powered by the host computer.

The Onyx Producer 2·2 features a download for ProTools | First and Waveform software and The Musician's Collection plug-in package including 23 high-quality plugins with BBD Delay, Level Lite, 304E EQ, and 304C Compressor. To authorize the software, simply input the mixer's serial number on the website.

Analog Circuitry

The Onyx Producer 2·2 delivers high headroom and low noise by means of its analog circuitry, including its Onyx mic preamps.

5-Pin DIN MIDI I/O

Two 5-pin MIDI jacks are provided—one for accepting MIDI signals and another for outputting MIDI to compatible devices.

Direct Monitoring

A true analog monitoring path allows you to hear audio directly from the preamps as you record, so you can eliminate the latency of hearing the audio through your DAW. The knob allows you to blend between direct monitoring and listening off your DAW.

Bus Powered

The interface features connectivity over USB 2.0 for fast data transfers and minimal latency. It's also bus powered through this port, meaning no external power is required. The unit is compatible with Core Audio and ASIO drivers.

All-Metal Chassis Design

The Onyx Series Producer gives you an all-metal enclosure and heavy-duty potentiometers, as well as a robust internal construction.

Key Features at a Glance

Dual Onyx mic preamps

Combo XLR-1/4" TRS inputs accept mic, line, or instrument sources

One Hi-Z switch per channel

+48V phantom power for use with condenser mics

2x2 interface recording up to 24-bit / 192 kHz

Zero-latency direct monitoring of analog inputs

Dedicated 1/4" TRS outputs for connecting studio monitors

MIDI I/O for connecting synths, controllers and more

1/4" headphone output

Bus powered for easy mobile recording with no power adapter needed

USB 2.0 connectivity for fast transfer speed and low latency

All-metal enclosure design to survive day-to-day abuse

Compatible with all major DAWs on Mac or Windows
