ONKYO R-N855 B

The M-CR611 not only looks superb, it's also a superb performer, reproducing excellent CD-audio, FM, DAB/DAB+ and Network files. Designed with ease of use in mind, the Melody Media features a simple "one-push" Wi-Fi connect.

The Melody Media now supports Spotify Connect, as well as a host of other digital media and streaming features. Alongside listening to millions of songs on the world's most popular online music service, it allows playback of music libraries stored on a NAS (Network Attached Storage) or a computer, provide access to thousands of free internet radio stations, and even support Apple AirPlay. Listeners can also take control via an Android and iOS compatible Marantz Hi-Fi Remote app.

An additional new feature is the speaker A / B configuration, allowing individual volume control for A and B, or master volume control for A and B. Use the Melody Media not just to flood one room with music, but two. This is real versatility in elegant housing. The M-CR611 also supports ALAC, as well as 192kHz / 24bit high-resolution WAV, FLAC, AIFF files, 2.8MHz DSD file and Gapless playback.
