Styled in a high-gloss black or a classic silver-gold finish, the Melody X offers a beautiful look to complement its superb performance. Deluxe vertical lighting accents on the front panel give that extra touch of quality. Designed with the modern audiophile in mind and crafted with superior materials that elevate audio quality. Fully optimised to reproduce the best audio performance possible, the compact signal paths reduce distortion and improve sound.

Featuring four channels of high-efficiency, low-distortion digital audio amplification, easily configure the Melody X to drive two pairs of loudspeakers with independent volume control for each pair. Or, configure it to drive a single pair of speakers with double the output power, with the option to connect a pair of audiophile bi-amp compatible speakers.
