

TASCAM MH 8

Šifra: 284
Kategorija proizvoda: Pojačala za Slušalice
Proizvođač: TASCAM

Cena: **51.480,00** rsd

TASCAM's **MH-8** is the ultimate headphone amplifier for studio, stage and installation. Each of the eight stereo outputs gets 250mW per side with three switchable sources available. Two stereo inputs can be shared to any of the outputs, and individual stereo direct inputs are available for each of the eight channels. A headphone out can select any one of these inputs, or mix several together. A set of foldback outputs allow you to chain other MH-8s into a system.

For the ultimate in routing flexibility and power, nothing beats the MH-8 headphone amp from TASCAM.

Features:

(8) stereo 1/4" headphone outputs

250mW + 250mW @ 32ohm per channel
Master input gain controls

Each
