MARANTZ NA8005 Silver

ONKYO

MARANTZ NA8005 Silver

Šifra: 9896

Kategorija proizvoda: Network Plejeri

Proizvođač: Marantz

Cena: 95.880,00 rsd

The Marantz NA8005 network streaming player can either bring your antiquated Hi-Fi bang up to date or be a great addition if you want to enjoy digital audio stored on a computer or network hard drive (NAS). This excellent player is put together using the same high-grade components as the PM8005 and SA8005 but opens up an abundance of streaming and connecting possibilities.

You can use the NA8005 as a DAC thanks to the digital inputs on offer. A pair of USB inputs are included, one around the back for laptops and computers and then a front-facing one for easy connection (plus charging!) to portable devices such as iPods, iPhones or portable music players. These connections bypass the standard soundboards on these devices for much smoother audio results. Optical and coaxial digital inputs are also included too, making the NA8005 a great choice to link up to other devices such as TV's, CD players and digital tuners.

The audio possibilities of the Marantz NA8005 go even further. Once connected (hard-wired only) to your internet router, the huge array of streaming audio services can be accessed from all the main paid subscription services to free-to-use internet radio stations and play back in crystal clear clarity. The NA8005 can also access the thousands of music tracks you may have stored on a NAS drive or computer no matter what the format is and either with the supplied remote control or the excellent free app by Marantz. Who says you can't have convenience, flexibility and high-quality Hi-Fi all rolled into one?

DAC Mode

DAC Mode

With the DAC mode we describe the operation of the product as an external Digital to

Analogue Converter (DAC).

You can connect via optical / coaxial digital inputs or the USB type B input sources such as such as an external CD drive, digital tape, music server, PC or network client. These sources can make use of the high quality D/A converter and the analogue output stage equipped with HDAM modules

to enrich
the
sound
quality.

Features

Streaming audio from PC	Yes
DAC operation mode	USB B type / Coax /
Asynchronous mode rear USB	Yes
Bit-perfect transmission	Yes
USB-B DSD Audio Streaming (DoP)	DSD2.8 / DSD5.6
Ground isolator for DAC Mode operation	Yes
Internet radio	Yes
AirPlay audio streaming	Yes
Windows Play to	Yes
VTuner / Spotify Connect*	Yes
USB Audio (Front) / Made for iPod / Works with iPhone	Yes
DLNA certified	v1.5
Lossy formats	MP3 / WMA / AAC
Lossless formats	DSD / FLAC192/24 /
Gapless Playback	FLAC, WAV
Remote APP: iDevice / Android	Yes
HDAM version	HDAM + HDAM SA2
Power Transformer: EI	Yes
High Grade Audio Components	Yes
Customized Components	Yes
Symmetric circuit layout	Yes

Inputs / Outputs

iPod / iPhone compatible USB (front)	Yes
USB type B input for PC (back)	Yes
Sample Rate USB In	192 kHz / 24-bit & D
Analogue Out	1
