The Marantz NA8005 network streaming player can either bring your antiquated Hi-Fi bang up to date or be a great addition if you want to enjoy digital audio stored on a computer or network hard drive (NAS). This excellent player is put together using the same high-grade components as the PM8005 and SA8005 but opens up an abundance of streaming and connecting possibilities.
You can use the NA8005 as a DAC thanks to the digital inputs on offer. A pair of USB inputs are included, one around the back for laptops and computers and then a front-facing one for easy connection (plus charging!) to portable devices such as iPods, iPhones or portable music players. These connections bypass the standard soundboards on these devices for much smoother audio results. Optical and coaxial digital inputs are also included too, making the NA8005 a great choice to link up to other devices such as TV's, CD players and digital tuners.
The audio possibilities of the Marantz NA8005 go even further. Once connected (hard-wired only) to your internet router, the huge array of streaming audio services can be accessed from all the main paid subscription services to free-to-use internet radio stations and play back in crystal clear clarity. The NA8005 can also access the thousands of music tracks you may have stored on a NAS drive or computer no matter what the format is and either with the supplied remote control or the excellent free app by Marantz. Who says you can't have convenience, flexibility and high-quality Hi-Fi all rolled into one?

HDAM SA2
Image not found or type unknown

HDAM SA2
Marantz developed its own discrete circuit boards to replace standard IC's. These HDAM's consists of discrete surface mount components

with short mirror image L/R signal paths. Those devices are doing exactly the same thing as the Op-Amps, but outperform the regular IC Op-amps dramatically in terms of the Slew Rate and reduced noise level, resulting in a much more dynamic, accurate and detailed sound. Over the years Marantz developed different types of the HDAM to improve quality and to fit to the special requirements of a product category

like CD
or
amplifier.

DAC Mode

client.
These
sources
can
make
use of
the high
quality

D/A converter and the analogue output stage equipped with HDAM modules to enrich the sound quality. Please check USB Type B describtion as well.

DLNA

Image not found or type unknown

DLNA
DLNA certified products guarantee a stable and fast connection, cross-brand interoperatebility, Universal Plug and Play (UPnP), automatic IP-addressing and easy to use in a wired or wireless setup with your home network: Sharing of your favourite music, photo's and

video's stored on your PC, NAS-drive, Musicserver or HD recorder through your audio/video set-up is possible.

Environmental Friendly

Environmental Friendly
Marantz products all carry the environmental logo. This logo proves the environmental way of thinking within Marantz. This does not stop with the low power consumption of all Marantz products in stand-by modus, but it also underlines the environmental way of working

and
producing
within
Marantz
and the
use of
environmental
approved
components
that do

**Made
for
iPhone
/ Made
for iPod**
"Made
for
iPod"
and
"Made
for
iPhone"
means
that an
electronic
accessory
has
been
designed
specifically
to
connect
to iPod
and has
been
certified
to meet
the

Apple performance standards. Current Marantz products carrying the 'Made for iPod' logo are compatible with the following iPod models: 4th Generation iPod or higher, iPod Classic, iPod Nano (1st, 2nd, 3rd and 4th generation), iPod video and iPod Touch. For 5th Generation iPod, iPod Nano or iPod Touch the audio transmission is digital. 'Made for iPhone' adds the iPhone compatibility to this list.

vTuner

vTuner
vTuner

connects your Internet-enabled product to the wide world of streamed music and talk. vTuner hosts thousands of Internet radio stations and podcasts on a reliable and maintained platform. The amount of content they offer keeps growing. Stations can be searched by several criteria such as region and genre, etc. but it is also possible to search a station by name or add a URL of a specific station if not listed yet. vTuner

doesn't
need a
subscription
and is
free of
charge
with the
enabled
Marantz
products.

DLNA 1.5 Network Audio Player with Network streaming, AirPlay, Internet Radio and Spotify Connect integration

Network streaming: up to DSD (DoP), FLAC 192/24, WAV 192/24, ALAC and Gapless support

DAC I
and U

USB-B port works in asynchronous mode and is capable of handling PCM up to 192kHz/24bits and DSD2.8 & 5.6Mhz direct streaming

Analo
high

High Current Audiophile DAC and accurate dual system clock and high quality customized components

Full D

System remote to control Amplifier, CD-Player and Network Player

Features

Streaming audio from PC	Yes
DAC operation mode	USB B type / Coax / C
Asynchronous mode rear USB	Yes
Bit-perfect transmission	Yes
USB-B DSD Audio Streaming (DoP)	DSD2.8 / DSD5.6
Ground isolator for DAC Mode operation	Yes
Internet radio	Yes
AirPlay audio streaming	Yes
Windows Play to	Yes
VTuner / Spotify Connect*	Yes
USB Audio (Front) / Made for iPod / Works with iPhone	Yes
DLNA certified	v1.5
Lossy formats	MP3 / WMA / AAC
Lossless formats	DSD / FLAC192/24 / A
Gapless Playback	FLAC, WAV
Remote APP: iDevice / Android	Yes
HDAM version	HDAM + HDAM SA2
Power Transformer: EI	Yes
High Grade Audio Components	Yes
Customized Components	Yes
Symmetric circuit layout	Yes

Inputs / Outputs

IPod / iPhone compatible USB (front)	Yes
USB type B input for PC (back)	Yes
Sample Rate USB In	192 kHz / 24-bit & DS
Analogue Out	1
Ethernet port	1
Digital Optical Inputs	1
Digital Coaxial Inputs	1
Digital Optical Outputs	1
Digital Coaxial Outputs	1
Sample Rate digital In	192 kHz / 24-bit
Marantz remote bus	Yes

Internal Specifications

D/A Conversion	Multi-bit, Delta-Sigma
DAC IC	CS4398
Digital Filter	CS4398

Noise Shaper	CS4398
Low Pass Filter stage	HDAM SA2
Output Buffer	HDAM SA2
Headphone amp	HDAM SA2

General

Available colours	Black / Silver-Gold
Metal Front Panel	Yes
Remote Control	RC003NA
Power Consumption	30 watts
Standby Consumption	0.4 watts
Detachable Power Cable	Yes
Maximum Dimensions (W x H x D)	440mm x 105mm x 3
Weight	7.2 kg
