Proizvođač: Naim

Cena: 395.880,00 rsd

Bringing Uniti to Life

Conceived and built from the ground up by their engineers and designers in Salisbury, England, Uniti remains true to their core design principles. From the finned aluminum heatsinks (inspired by their Statement flagship amplification system) to the brushed black aluminum casing, the new illuminated signature volume control and the beautifully lit base - every minute detail has been considered to deliver

a beautiful aesthetic packed with features and technology whilst achieving reference-level sound quality.

Uniti is a true masterpiece of industrial design.

Local Storage

Uniti Atom allows you to connect an external USB-connected drive so you can store up to 20,000 tracks and play them back through your all-in-one player. You can also use your Uniti Atom to serve music to up to four network-connected players in a multiroom system.

Under the Skin of Uniti Atom

Naim have gone to extraordinary lengths to maximise the sound quality from such a compact all-in-one player. From the substantial transformer, which ensures that the power supply is always smooth and stable, to the sophisticated, hand-wired analogue and digital circuitry, every element of the design in Uniti Atom has been considered for its effect on sound quality.

Purposeful Materiality

Purposeful Materiality

Uniti has been impeccably crafted with materials chosen to be in complete service of the sound. The extruded aluminium heat sinks that run down the length of the product extract heat to maximise thermal stability for increased longevity and sonic performance. The beautifully brushed aluminium top plates are CNC-fabricated for absolute precision and provide a perfect enclosure for the delicate components inside.

Precision Volume Control

Precision Volume Control

At the heart of Uniti is an audiophile volume control which adjusts level in the analogue domain to a premium digital resolution. Its ultra-smooth rotation

and illumination is inspired by their reference amplification system, Statement. The lit volume segments are reflected in the same fashion on Uniti Atom's intuitive remote control and will adjust accordingly on the top surface ring if the volume is changed remotely. We've also hidden the Bluetooth antenna here for a seamless aesthetic.

Give Your Music Some Colour

With the Uniti range we wanted to deliver total connection to the user's music collection. A highly polished full-colour 5" LCD display provides rich images of album artwork and content. The screens have proximity sensors and will therefore wake up as someone approaches the machine to display music metadata, audio input information and more. There is also a selection of front-panel buttons including Favourites, Stop and Play.

Revolutionary New Streaming Platform

Uniti has been developed with a completely new, extremely powerful and versatile streaming board. This innovative new platform is much more powerful than its predecessor, has masses of memory, will adapt to new technology effortlessly and seamlessly integrates with other network-connected Naim systems, including the Mu-so wireless music system.

New and improved Naim app

The new intuitive Naim App gives you effortless control over individual or multiple Uniti products. You can access all of your

music, including your favourite radio stations, streaming services and playlists, or explore artist discographies and biographies. Furthermore, you can now update your system wirelessly with a single tap. The new app also allows you to control both Naim streaming products and Uniti Core.

Glass display and intuitive remote control

Uniti Atom features a full-colour 5" LCD glass display with a proximity sensor that wakes up on approach, accompanied by a bidirectional intelligent remote control that works in harmony with the unit's volume control. Giving you complete freedom of movement, Uniti is a joy to use.

Class A/B Amplification

Uniti Atom uses a powerful 40-watt A/B-class amplifier with technology taken from their iconic NAIT integrated amps. We've also installed the largest power supply possible as well as the finest-quality SMD circuitry and premium Burr Brown DACs to deliver the unique Naim pace, rhythm and timing.

A Closer Look at Uniti's Digital Brain

The new Uniti Atom features an incredibly powerful, phenomenally accurate fourth-generation 40-bit SHARC DSP processor. Unique Naim software minimises jitter (timing errors inherent in digital music streaming) and up-samples incoming data to ensure optimum sound quality. This all happens in the tiniest fraction of a second so the only thing you notice is the extra clarity in your music.

State-of-the-art Wi-Fi
State-of-the-art Wi-Fi
New Uniti all-in-one
players include the very
latest Wi-Fi technology.
The superior Wi-Fi
processor supports 2.4
and 5 GHz, alongside a
much better internal
buffer and memory – Uniti
Star will store up to five
minutes worth of data,
which results in far fewer
dropouts. The Wi-Fi aerials
(one on either side of the
product for optimum
range) are integrated
behind a slot machined
into the heat sink, a
patent-pending system
that provides robust
connectivity without the
need for an external
aerial.

Uniti System
Uniti System
Whatever
the
source,
their
revolutionary
new
Uniti
players
combine
seamless
digital
technology
with
analogue
soul for
a sound
that's
unmistakably
Naim.
Play,
stream,
rip and
store
entire
music
collections
in
flawless
high-
resolution.
Then
use their
custom-
designed
software
to bring
out
every
note of
your
music
with true
high-
fidelity
sound.
New
Uniti
also
gives
you the
option to
sync up
to six
Uniti
systems
or other
Naim
streamers

and play
music
from any
source
in
multiple
rooms
simultaneously.
Or play
different
music in
every
room.

"eight
years
after the
original
Naim
Uniti
redefined
what a
one-box
hi-fi
system
could
do, Naim
went
back to
the
drawing
board to
completely
reinvent
the Uniti
line-up.
And in
doing
so, it's
made
Uniti
arguably
the most
future-
proof –
and

most
jaw-
droppingly
desirable
– music
platform
money
can buy.
Rarely
does a
product
look and
sound as
good as
the Uniti
Atom,
but here
Naim
has
drawn
big old
capital
S's on
Style
and
Substance"

Best Buy

**Best
Buy**

"This is
the
smallest
and
most
affordable
of the
Uniti
products
– one
that
costs
significantly
less than
some of
the
models
we have
looked
at – but
it still
manages
to
compete
on
pretty
much
even
terms.
The
addition
of

Chromecast support and the HDMI input are not, on their own, revolutionary but they help to create a product that is a superbly judged balance of flexibility and sheer performance. It's been a long time coming but the Uniti Atom is here now and it is unquestionably a Best Buy."

Connectivity

Audio Inputs	2 x Optical TOSLink 1 x Coaxial RCA (up to 5.1) 1 x HDMI ARC, 1 x RCA, 2 x USB Type A socket 1x HDMI ARC
Audio Outputs	1 x Stereo power amp 1 x RCA sub/pre out 1 x 3.5mm headphone

Dimensions and Weight

Dimensions	95 mm x 245 mm x 40 mm
Weight	7 kg
