Proizvođač: Naim

Cena: **395.880,00** rsd

Bringing Uniti to Life
Conceived and built from the ground up by their engineers and designers in Salisbury, England, Uniti remains true to their core design principles. From the finned aluminum heatsinks (inspired by their Statement flagship amplification system) to the brushed black aluminum casing, the new illuminated signature volume control and the beautifully lit base – every minute detail has been considered to deliver a beautiful aesthetic packed with features and technology whilst achieving reference-level sound quality. Uniti is a true masterpiece of industrial design.

Local Storage
Uniti Atom allows you to connect an external USB-connected drive so you can store up to 20,000 tracks and play them back through your all-in-one player. You can also use your Uniti Atom to serve music to up to four network-connected players in a multiroom system.

Under the Skin of Uniti Atom
Naim have gone to extraordinary lengths to maximise the sound quality from such a compact all-in-one player. From the substantial transformer, which ensures that the power supply is always smooth and stable, to the sophisticated, hand-wired analogue and digital circuitry, every element of the design in Uniti Atom has been considered for its effect on sound quality.

Purposeful Materiality

Purposeful Materiality
Uniti has been impeccably crafted with materials chosen to be in complete service of the sound. The extruded aluminium heat sinks that run down the length of the product extract heat to maximise thermal stability for increased longevity and sonic performance. The beautifully brushed aluminium top plates are CNC-fabricated for absolute precision and provide a perfect enclosure for the delicate components inside.

Precision Volume Control

Precision Volume

Control

At the heart of Uniti is an audiophile volume control which adjusts level in the analogue domain to a premium digital resolution. Its ultra-smooth rotation and illumination is inspired by their reference amplification system, Statement. The lit volume segments are reflected in the same fashion on Uniti Atom's intuitive remote control and will adjust accordingly on the top surface ring if the volume is changed remotely. We've also hidden the Bluetooth antenna here for a seamless aesthetic. Give Your Music Some Colour

Image not found or type unknown

Give Your Music Some Colour

With the Uniti range we wanted to deliver total connection to the user's music collection. A highly polished full-colour 5" LCD display provides rich images of album artwork and content. The screens have proximity sensors and will therefore wake up as someone approaches the machine to display music metadata, audio input information and more. There is also a selection of front-panel buttons including Favourites, Stop and Play.

Revolutionary New Streaming Platform

Image not found or type unknown

Revolutionary New Streaming Platform

Uniti has been developed with a completely new, extremely powerful and versatile streaming board. This innovative new platform is much more powerful than its predecessor, has masses of memory, will adapt to

new technology
effortlessly and
seamlessly integrates
with other network-
connected Naim systems,
including the Mu-so
wireless music system.
New and improved Naim app

Image not found or type unknown

New and improved Naim app

The new intuitive Naim App gives you effortless control over individual or multiple Uniti products. You can access all of your music, including your favourite radio stations, streaming services and playlists, or explore artist discographies and biographies. Furthermore, you can now update your system wirelessly with a single tap. The new app also allows you to control both Naim streaming products and Uniti Core.
Glass display and intuitive remote control

Glass display and intuitive remote control

Uniti Atom features a full-colour 5" LCD glass display with a proximity sensor that wakes up on approach, accompanied by a bidirectional intelligent remote control that works in harmony with the unit's volume control. Giving you complete freedom of movement, Uniti is a joy to use.

Class A/B Amplification

Image not found or type unknown

Class A/B Amplification

Uniti Atom uses a powerful 40-watt A/B-class amplifier with technology taken from their iconic NAIT integrated amps. We've also installed the largest power supply possible as

well as the finest-quality SMD circuitry and premium Burr Brown DACs to deliver the unique Naim pace, rhythm and timing.

A Closer Look at Uniti's Digital Brain

A Closer Look at Uniti's Digital Brain

The new Uniti Atom features an incredibly powerful, phenomenally accurate fourth-generation 40-bit SHARC DSP processor. Unique Naim software minimises jitter (timing errors inherent in digital music streaming) and up-samples incoming data to ensure optimum sound quality. This all happens in the tiniest fraction of a second so the only thing you notice is the extra clarity in your music.

State-of-the-art Wi-Fi

Image not found or type unknown

State-of-the-art Wi-Fi

New Uniti all-in-one players include the very latest Wi-Fi technology. The superior Wi-Fi processor supports 2.4 and 5 GHz, alongside a much better internal buffer and memory – Uniti Star will store up to five minutes worth of data, which results in far fewer dropouts. The Wi-Fi aerials (one on either side of the product for optimum range) are integrated behind a slot machined into the heat sink, a patent-pending system that provides robust connectivity without the need for an external aerial.

Uniti System

Uniti System

Whatever the source, their revolutionary new Uniti players combine seamless digital technology with analogue soul for a sound that's unmistakably Naim. Play, stream, rip and store entire music collections in flawless high-resolution. Then use their custom-designed software to bring out every note of your music with true high-fidelity sound. New Uniti also gives you the option to sync up to

six Uniti
systems
or other
Naim
streamers
and
play
music
from
any
source
in
multiple
rooms
simultaneously.
Or play
different
music in
every
room.

"eight
years
after
the
original
Naim
Uniti
redefined
what a
one-box
hi-fi
system
could
do,
Naim
went
back to
the
drawing
board

to
completely
reinvent
the
Uniti
line-up.
And in
doing
so, it's
made
Uniti
arguably
the
most
future-
proof –
and
most
jaw-
droppingly
desirable
– music
platform
money
can
buy.
Rarely
does a
product
look
and
sound
as good
as the
Uniti
Atom,
but
here
Naim
has
drawn
big old
capital
S's on
Style
and

"This is
the
smallest
and
most
affordable
of the
Uniti

products
– one
that
costs
significantly
less
than
some of
the
models
we have
looked
at – but
it still
manages
to
compete
on
pretty
much
even
terms.
The
addition
of
Chromecast
support
and the
HDMI
input
are not,
on their
own,
revolutionary
but they
help to
create a
product
that is a
superbly
judged
balance
of
flexibility
and
sheer
performance.
It's
been a
long
time
coming
but the
Uniti
Atom is
here
now
and it is
unquestionably
a Best

Buy."
