selection from the range of KOMPLETE Instruments and Effects - 27 different instruments and effects for virtually every genre of music conceivable.

Included in Komplete 8 are some brand new versions of classic NI plug-ins - KONTAKT 5, BATTERY 3.1, REAKTOR 5.6 and GUITAR RIG 5 PRO push the sonic boundaries once again, and new titles have also been added - STUDIO DRUMMER - the Ultimate software drummer, high quality kits, built-in effects, and thousands of grooves, TRANSIENT MASTER - A powerful studio effect for shaping sounds, WEST AFRICA - African percussion and melodic instruments with cutting-edge rhythms, and RETRO MACHINES MK2 - a collection of legendary analogue synths and Keyboards, plus there are over 1,300 additional sounds for MASSIVE, FM8 and ABSYNTH 5.

For a full list of all included instruments and effects see the Komplete 8 Ultimate Plug-in guide in the image gallery. Komplete 8 Ultimate also brings even greater integration with Native Instruments Maschine hardware controller - all presets are optimized for convenient browsing in Maschine, and hands-on control of sounds and samples is seamless.
