KOMplete AUDIO 6 - because KOMplete sounds better.

The KOMplete AUDIO 6 package also includes KOMplete ELEMENTS, with over 1000 sounds and effects, plus software for recording, sequencing and Djing.

### A SOUND DECISION

KOMplete AUDIO 6 lets you experience every facet of your sound, whether you're playing virtual instruments or recording audio. After all, if you're using MASCHINE or KOMplete Instruments and Effects, you're armed with an array of sounds in the highest-possible audio fidelity. KOMplete AUDIO 6 gives you the hardware to match.

Pristine sound doesn't happen by accident - it's the result of knowledge, experience and close attention to detail. KOMplete AUDIO 6 has been designed in-house by NATIVE INSTRUMENTS. From the custom, streamlined circuit design, through the hand-picked components to the analog volume knob on top of the unit - every part of the interface is designed to preserve signal clarity.

### KOMplete CONNECTIVITY

KOMplete AUDIO 6 is designed to be flexible, with plenty of options for connecting mics, guitars, MIDI instruments or outboard gear:

4 analog inputs:  
2 balanced mic/line/instrument (XLR); plus 2 balanced line (1/4" TRS)

4 balanced analog outputs (1/4" TRS)

Digital stereo input and output (S/PDIF / RCA) for lossless signal transmission

MIDI in/out for master keyboard, MASCHINE or any third-party MIDI controller

Headphone output with independent level control and source switch

Completely USB powered, with an extra sturdy custom USB socket

New chips, new audio drivers and new circuitry ensure that latency is low, and the direct monitoring option provides 100% latency-free monitoring for recording guitars, vocals, or other live sources.

### RECORD AND MONITOR

Other important recording features:

Low-latency performance for using virtual instruments and effects

High-quality pre-amps with individual gain controls

Direct monitoring for live, latency-free recording

Mono input switch for recording vocals, guitar or other mono sources

48V phantom power for using condenser mics and active DI boxes

15 status LEDs provide visual feedback for all signals and indicate clipping
