### NATIVE INSTRUMENTS TRAKTOR KONTROL S4 MK2

your laptop, tunes, and talent, and you're ready to start DJing with Native Instruments' Traktor Kontrol S4 MK2 DJ controller system. Designed to integrate perfectly with the included Traktor Pro 2 DJ software, the S4 hardware controller matches both its function and its layout, making it incredibly intuitive. Traktor Kontrol S4 is more than just an amazing DJ rig, it also features a powerful mixer engine, award-winning effects, and Native Instruments' super-flexible sample deck architecture. What's more, you can control it all

without ever grabbing your mouse or hiding behind your screen.

Powerhouse DJ software for today's competitive digital DJs

Traktor Pro 2, the software behind the Traktor Kontrol S4 MK2 DJ controller system, represents over a decade of DJ software innovation. Simply put, NI wrote the book about about controllerism and carved out the niche that's become the amazing world of software DJ systems. With powerful features including a rock-solid sync engine, flexible cue points and grid mapping, and TruWave colored waveforms, Traktor Pro 2 makes DJing with the Traktor Kontrol S4 DJ controller system super easy. What's more, the Traktor Kontrol S4 MK2 hardware also integrates perfectly with Native Instruments' Traktor DJ app for Apple's iOS, so you can really travel light.

Amazing hands-on control plus incredible sound quality

Silicone-damped, high-resolution jog wheels give you 30 times the precision of a standard MIDI controller, letting your pull off real turntablist tricks with your Traktor Kontrol S4 MK2 DJ controller. They're also equipped with a patent-pending magnetic brake, which provides a wonderful extra dose of realistic feel. Backlit RGB buttons provide you with excellent visual feedback, and a full 4-deck mixer section (complete with dedicated effects controls) put every function you need right under your fingertips. And you don't have to be a seasoned DJ to appreciate the exquisite feel of the Traktor Kontrol S4's amazing faders. Top it all off with a 4-channel 24-bit/96kHz audio interface, and you're ready to DJ anywhere with this rig.
