your turntables, CDs, mixer or laptop. Dicer always ships in pairs - one for each side.

Dicer works with almost any DJ software and it is optimised for use with:  
Serato Scratch Live  
Traktor Scratch Duo/Pro  
Traktor Pro

A pair of Dicer gives you a total of 60 buttons:  
Dicer can trigger samples, cue-points, loops and FX. You can use Dicer to browse through playlists, nudge tracks backwards and forwards or it can be freely assigned to whatever functions you want. Coloured LEDs behind each button tell you what mode you are in.  
Dicer was designed by Novation in collaboration with Ean Golden - DJ and curator of DJ Tech Tools. Ean came up with the concept of a controller that fits on the turntable, and his contribution has been crucial in helping Novation design and develop Dicer.

### Key Features

#### Performance buttons with visual feedback

Backlit, multi-colour, soft touch 'dice' buttons, provide immediate LED feedback from Serato Scratch Live software.

#### Locks straight onto Technics SL 1200/10, and similar decks

Using the 45-adaptor hole, Dicer places looping control right where you need it - on your decks, millimetres away from your vinyl.

#### Attaches to CDs, mixers and laptops.

With Novation's reusable 'DJ putty', your Dicers can slot into even the most cramped of DJ performance set-ups, sticking cleanly and directly onto your CDs, mixer or laptop.

#### Default set-up for Serato Scratch Live

Dicer is pre-programmed to take advantage of the cue point and looping functions in Serato Scratch Live, including 'Hot Cues', 'Auto Roll' and 'Loop Roll'.

#### Works with all major DJ software

Dicer is fully MIDI assignable, so it can be set up to control almost any software, including Traktor Scratch
