	Rock solid build quality		

Be More Creative

Novation's 20+ years of innovation in synths and controllers have culminated in Impulse: a flexible keyboard controller designed to make you more creative in your studio productions and on stage. Tough enough to handle the most demanding live situations, you can simply plug Impulse into Mac or Windows and get started straight away, without the need for a power supply.

Produce Great Music Even Faster

impulse found or type unknown

Mix and sculpt your sound using smooth knobs, chunky faders and precision buttons that work seamlessly in your music making software. Roll beats, arpeggiate chords and launch clips using large velocity-sensitive drum pads.

Impulse's MIDI connections mean you can also control the rest of your plug-ins, instruments and effects, including Native Instruments, Waves, FXpansion and Garage Band.

Key Features

Create Beautifully Expressive Performances

Impulse's keybeds feature semi-weighted action with aftertouch, whilst our unique High Rate Scan (HRS) technology scans the keyboard 10,000 times per second to ensure true, accurate and expressive

performance.

Produce Music Even Faster

Integration with major music software allows you to produce electronic music even faster in Ableton Live, Pro Tools, Logic, Reason, Cubase and Sonar. Sculpt your sound and mix with ease using smooth knobs, chunky faders, precision buttons, and a custom LCD screen, whilst controlling your plug-ins, instruments and effects, such as Native Instruments, Waves and FXpansion.

Do More with Your Drum Pads

Create unique sequences and rhythms using pressure-sensitive drum pads to trigger arpeggios, launch clips, and warp and roll beats. These pads also function as multicoloured clip launchers, so you can tell whether clip is loaded (yellow), playing (green), or recording (red).

Connect To Just About Anything

Its rugged and professional build quality makes Impulse tough enough to handle the most demanding live situation. Simply plug in and play on Mac or Windows without the need for a power supply. MIDI I/O means you can connect to the rest of your production gear, too

Make Music Straight Out of the Box

Impulse comes complete with Ableton Live Lite, the music production and performance software favored by countless leading artists around the world. It also contains an impressive collection of production-ready samples from highly-esteemed sample boutique, Loopmasters.

Add Some Character

Impulse controllers include Bass Station software, the virtual version of the iconic analogue synth. Bass Station's combination of warm oscillators and fat analogue filters creates distinctive sounds that add character to your music productions.
