Cena: 9.240,00 rsd

easily tweak your instruments using eight high-quality knobs, and sketch out ideas on a 25-note mini keyboard with a fast synth-style action that makes it really enjoyable to play.

Launchkey Mini MKII is compact and tough enough to throw in your bag, so you can take it anywhere. It will work the moment you plug it into your laptop and you won't need any drivers or power cables, because it's class compliant and bus-powered via USB. You can also connect it to your iPad via a Camera Connection Kit to control all sorts of iOS music apps, like Novation's free Launchkey App.

Launchkey Mini MKII also integrates immediately with FL Studio, Pro Tools, Reason, Cubase, and Logic without any mapping whatsoever. It comes with everything you need to start making music, including XLN Audio Addictive Keys, Ableton Live Lite, Novation Bass Station and V-Station virtual instruments, and 4GB of samples from Loopmasters.
