

NUMARK Orbit - DJ kontroler

NUMARK Orbit - DJ kontroler

Šifra: 9125

Kategorija proizvoda: DJ Kontroleri

Proizvođač: Numark

Cena: **8.280,00** rsd

Mix with Motion

Orbit's embedded MIDI-assignable accelerometer makes your mix follow your motion. Assign any two volume, effect, or filter parameters to Orbit's shoulder triggers and hang on for the ride. By tilting Orbit left and right or forward and back, you can create sweeping effects and even combine two effects at the same time—just hold down both shoulder triggers and start moving.

"This controller can do, effectively, whatever you want it to and can be mapped and used relatively easily."
-DJWorx.com

Illuminate Your Performance

Orbit's 16 backlit pads are fully customizable, so you can organize parameters for your style of performance and customize every pad's color to what you prefer. With 4 selectable banks, Orbit's 16 pads allow you to assign up to 64 hot cues, lighting transitions, video clips, samples, and more. Plus, Orbit's center aluminum-faced control wheel allows you to assign up to four virtual knobs per bank for a total of 16 parameters.

"... the opposite of standing rigidly behind a laptop, eyes locked to the waveforms." -DigitalDJTips.com

A Zero-Gravity Wireless Experience

Perform wired or wireless. Orbit charges via USB and can also control your software via USB. Orbit gives you 2.4 GHz ultra-low-latency wireless performance control with a range of up to 100 feet and eight hours of continuous use per charge (up to 24 hours standby). With its rotating buckle and metal strap rings, you can go hands-off and attach Orbit to your belt or arm band, or hang it around your neck for instant access during performances.

Orbit from Numark — it's hands-on control that's out of this world.

FEATURES

- 2.4 GHz ultra-low-latency wireless performance control
- 16 backlit pads, 4 selectable banks, 4 virtual knobs per bank
- Internal 2-axis accelerometer for instant motion control via 2 shoulder trigger controls
- 100% MIDI-customizable: control music, software, videos, effects, lighting, and more
- Use handheld, strapped to belt or body or hung around neck
- Included MIDI editor allows easy configuration of all 84 performance controls
- Illuminated aluminum-faced control wheel
- Includes Orbit DJ software
- Rechargeable lithium-ion battery

INCLUDES

- Orbit Controller
- Orbit DJ Software (Download)
- Orbit MIDI Editor (Download)

Velcro Strap (For wearing)

Safety & Warranty Manual

□ Operating time: 8 hours continuous
□ Product Dimensions (out of box): 7.1" W x 4.3" D x .9" H
□ Product Weight (out of box): 11.2 ounces (317 g)
□ Charging Cable: USB
□ Wireless Carrier Frequency: ~2.4 Ghz (RF)
□ Wireless Range: Up to 100 feet
□ Wireless Receiver: USB
□ Option To Use Wired Over USB: Yes
□ Assignable Buttons (physical): 16
□ Banks: 4
□ Total Assignable Buttons: 64
□ Assignable Jog Wheel (physical): 1
□ Total Jog Wheels: 4
□ Accelerometers: X and Y
□ Communication Protocol: General MIDI
□ Orbit DJ audio files supported
□ Lossless:
WAV 16-32 bit, 44.1k - 192k
AIFF 16-32 bit, 44.1k - 192k
FLAC
ALAC
□ Lossy:
MP3 32 kbit/s - 320 kbit/s + VBR
M4A / AAC
MP4
OGG Vorbis
□ Supported operating systems:
Mac OSX 10.5.8 and higher
Windows XP and higher; 32-bit and 64-bit supported
□ Orbit DJ Software Minimum System Requirements
□ Windows
Core 2 Duo 2.0 Ghz or faster processor
2 Gb system RAM
Windows 7 (32/64bit) or Windows 8 (32/64bit)
Windows Direct X compatible audio output device or soundcard
1280x800 resolution display
100 Mb free disk space for installation of Orbit DJ
Orbit Controller
□ Mac
Core 2 Duo 2.0 Ghz or faster processor
2 Gb system RAM
OSX 10.7 or OSX 10.8
1280x800 resolution display
100 Mb free disk space for installation of Orbit DJ
Orbit Controller
