Cena: 59.880,00 rsd

display, but with a few fantastic additions. A stereo USB recording interface makes the unit perfect for recording live events, practice sessions, studio jams and so on, without the headache that comes with complex recording setups. In addition to this, a versatile compressor function has also been built right into mono channels for smoothing out vocals and drums. With just an AM USB mixer, a modern computer and a tiny bit of talent, you'll be making quality recordings in no time!
