

PRO-JECT RPM 3 Carbon Piano 2M Silver

Šifra: 11914
Kategorija proizvoda: Gramofoni
Proizvođač: Pro-Ject

Cena: 95.880,00 rsd

Best European Tuntable 2015-2016

"Benefitting from trickle-down technology developed for its costlier RPM-series turntables, this new deck features a host of engineering innovations to boost its sound."

Best European Tuntable 2015-2016

The brand new tonearm is a carbon fibre/aluminium resin construct, made using special heat and pressure treatments. The result of this new design is a tonearm that is more solid and anti-resonant than ever before at this price, while maintaining a light weight. The arm is finished off with a pre-fitted Ortofon 2M Silver cartridge and a new magnetic anti-skate mechanism. The improved counterweight also utilises TPE damping in the form of an anti-resonant ring around the fixing point.

The new vinyl topped sandwich platter creates the perfect surface for your vinyl to play on with no need for a mat.

The completely decoupled motor is based upon the same design as the Xpression Carbon, powered by an AC generator that's connected to the new DC power supply. The inverted main bearing now utilises a ceramic ball, offering a more fluid and consistent platter rotation than ever before.

Available in Red, White or Black high gloss finishes, the RPM 3 Carbon is a turntable package that offers truly phenomenal value for money.

Precision belt drive using synchronous motor

Ultra-precision DC-driven AC generator motor power

Inverted platter bearing with ceramic ball

Vinyl topped sandwich platter

10" S-shaped tonearm made from carbon, aluminium, resin utilising special heat and pressure treatments

Magnetic anti-skating

Counterweight with TPE damping

Pre-fitted Ortofon 2M Silver cartridge

3 high-gloss colours (black, red, white)

Lid available as optional extra

Pre-Fitted Cartridge	Ortofon 2M Silver
Nominal Speeds	33 / 45 RPM
Dust Cover	No (Optional Extra)
Motor Completely Decoupled	Yes
RCA Phono Sockets	Yes
S-Shaped Tonearm	Yes
Effective Tonearm Length	10" (254mm)

Effective Tonearm Mass	15g
Overhang	16mm
Tracking Force	0 - 25mN
Speed Drift	± 0.14%
Wow & Flutter	± 0.19%
Signal to Noise	-71dB
Platter Weight / Diameter	1.6kg / 300mm
Output Voltage	15V / 800mA DC
Power Consumptio	5W Max. /
Dimensions (W x H x D)	447 x 118 x 373mm
Weight	5.5kg
