The PM1122R is a remote control panel for the PM1122, APart's multifunctional preamplifier. Mounting screws are included.

The control panel offers music level control, line source selection and microphone mix level control.

The remote panels are connected to the PM1122 by a standard CAT-5 cable wired according to the T-568B protocol. The maximum wire length is up to 300m, according to circumstances. You can use one PM1122RL per zone.
