Q ACOUSTICS 7000i Slim White 5.1 komplet 5 zvučnika+aktivni vufer

Šifra: 13361
Kategorija proizvoda: Surround Zvučnici
Proizvođač: Q ACOUSTICS

Cena: **143.880,00** rsd

The 7000i 5.1 Slim system has been designed for those who want a big sound from a very compact set of speakers, particularly the subwoofer, which at 150mm (6") deep is the slimmest they have produced so far. The Left, Right, Centre and Rear speaker enclosures are attractively designed D-shaped aluminium castings for low resonance. Its precision soundstage, powerful dynamics and rich deep bass create the perfect, discreet home cinema system.

Based on the award-winning 7000 series speaker components, constructed using precision aluminium cast enclosures

Uses the 7060 Subwoofer, which at only 150mm deep is the slimmest, standalone subwoofer Q Acoustics have ever produced
Speakers and subwoofer are available in contemporary matte black and white finishes

Big Sound
7000i Series is a beautifully styled speaker range where the focus is on getting the biggest sound from the smallest, best-looking speakers. This is done by moving as much of the bass as is possible into a subwoofer, enabling us to make much smaller speakers for the front and surround channels, each with their mounting method as part

of the clever design.
Mounting Options

Mounting Options

The supplied speaker table stand, which also double as wall bracket can be replaced with optional floor stands with uprights, which conceal the speaker cables and armoured glass, transparent bases as not to conceal the floor covering. An optional wall bracket allows the 7060 to be wall mounted and a steel mesh grill protects the 200mm driver from accidental damage.

Low Frequency Satellite Speakers

Image not found or type unknown

Low Frequency Satellite Speakers

It is of great importance is that there is enough overlap between the speakers and subwoofers bandwidth to ensure that they crossover seamlessly without any gaps or peaks. This

has been done
by giving the
'satellite'
speakers enough
low-frequency
extension that
they can even be
used on their
own.
Perfect For Wall Mounted Screens

Image not found or type unknown

**Perfect For
Wall Mounted
Screens**

Once mounted,
the left, right
and centre
speakers can be
angled to
enhance their
performance.
The terminals
are cleverly built
into the mount
and speaker
cables can be
hidden from
view, making
these ultra-
discreet
speakers an
excellent choice
to partner a wall
mounted screen.
