Concept 20 Speakers

The beautifully finished, compact and eminently affordable Concept 20 loudspeaker is designed for music lovers who wish to enjoy performances at their very highest quality. The Concept 20 changes everything. Their revolutionary 'Gelcore™ Construction' incorporated into their design means, for the very first time, music lovers can enjoy genuine 'high end' sonic performance at a very affordable price.

The astonishing ability of the Concept 20 is best revealed when the loudspeakers are used in conjunction with the matching Concept 20 Speaker Stands which, to optimise performance, boasts a Gelcore™ layer in its top plate. This is both visually striking and is resonance-free to optimise sonic performance. With the option of either lacquered gloss black, or lacquered gloss white, not only will they sound amazing, but will also look great. Their versatile design means they are also at home on furniture, bookshelves or suitable wall brackets. Wherever you decide to place them, they will deliver an amazing experience that many of those with a higher price range struggle to reach.

Napomena: stalci nisu uračunati u cenu, već se mogu kupiti posebno [klikom na ovaj link](#).
