Best Cable Loom

[Combined with Reference Audio 40] "this cable combo was applauded for its smooth vocal sound and crisp, finessed treble. Moreover, it offers an open and even sound with a coherence and sense of balance that's rare at the price"

Provided your system's good enough to make proper use of a cable like this, you won't be disappointed. It's brilliantly detailed, yet avoids the tonal brightness.

The new cable is a fusion of QED's high end 'Genesis' and 'X-Tube' technologies, combining them into a new miniature format and bringing high end cable philosophies into a mid-prices product for the first time. This breakthrough means 'Revelation' boasts an overall impedance, and a dissipation factor, significantly below that of a conventional speaker cable with the same cross-sectional area.

The result is a speaker cable that exudes breathtaking neutrality, allowing good hi-fi and home cinema equipment to perform at its very best.

The cable is an attractively finished, standard 'figure 8' configuration, with each of its ten 99.999% silver-plated multiple cores visible through a flexible 5.0mm diameter, clear polyethylene outer sheath. For ease of assembly and to ensure correct speaker 'phasing', the 'positive' cable is clearly marked and the whole is easily stripped into the recommended QED 'Airloc' speaker plugs.

Specifications

Wire gauge - 16 AWG
Jacket OD - 5.00 mm
Cross-sectional area - 1.50 mm²
Loop resistance - 0.020 Ω/m
Capacitance - 35 pF/m
Inductance - 0.52 µH/m
Dissipation factor - 0.0009
Recommended for high end bookshelf installations
Lifetime Guarantee

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
