MARTIN Raptor

Šifra: 6298

Kategorija proizvoda: Klasični Efekti

Proizvođač: Martin

Cena: **23.880,00** rsd

The Raptor is a powerful mid-air performer that creates a dynamic, eye-catching show with more than 70 ever-changing light beams.

Small and lightweight...but deceptively fast and powerful, the new Martin Raptor lives up to the wild, aggressive reputation of its Jurassic namesake. With the Raptor, Martin has given real teeth to the DJ lightshow. More than 70 razor sharp light beams slice through the air, constantly changing color and direction to the intensity of the music.

The Raptor has more power. It employs a 250 watt halogen lamp to give unrivalled brightness for a unit of its compact dimensions. And it's always ready when you need it. A built-in high speed cooling fan ensures the Raptor is ready to rip all night long

250 W halogen lamp

1000 hour lamp included

9 gobos

Colored dichroic glass paddlewheel

70 ever-changing, moving, colored light beams

Safety approvals CE

Rigorously tested for total reliability

Music triggered

Continuous operation - no cool down time needed

Physical

Length: 240 mm (9.4 in.)

Width: 400 mm (15.7 in.)

Height: 170 mm (6.7 in.)

Weight: 6.7 kg (14.8 lbs.)

Lamp

Type: 250 W, 24 V ELC halogen

Fitted as standard: Philips ELC 10H 250 W (1000 hrs.)

Socket: GX 5.3

Dynamic Effects

Motorized rotating parabolic mirror dish

9 gobos

Motorized dichroic filter paddlewheel

Control and Programming

Stand-alone trigger options: Music trig, automatic level sensitivity adjustment

Construction

Housing: Steel and aluminum

Installation

Mounting points: Adjustable mounting bracket

Orientation: Any

Connections

AC power input: 3-pin IEC male socket

Electrical

AC power: 110-120 V, 50/60 Hz (US model), 230-240 V, 50/60 Hz (EU model)

Main fuse: 5.0 AT (US model), 2.5 AT (EU model), slow blow

Thermal

Cooling: Forced air

Maximum ambient temperature (Ta max.): 40° C (104° F)

Maximum surface temperature, steady state, Ta=40° C: 60° C (140° F)

Typical heat dissipation (calculated): 920 BTU/hr.
