

## RELOOP KUT

Šifra: 12810  
Kategorija proizvoda: DJ Miksete  
Proizvođač: Reloop

Cena: **41.880,00** rsd

### DYNAMIC FX – DIGITAL PERFORMANCE EFFECTS

In the centre of the mixer is the dynamic FX section with 7 effects, including phase/flange, white noise, LPF/HPF filter, gate/crush for creative remixing. The on/off function can toggle the effects, the large easy-grip knob caps offer pleasant resistance and the green status LEDs show immediately if an effect is active.

### INNOFADER – A HIGH-QUALITY AND PRECISION FADER SECTION

Together with its very smooth battle line-faders, KUT is particularly well-suited for precise cutting thanks to the supplied innoFADER, with its non-contact technology meeting even the highest standards. Crossfader and linefader curves can be customised and adapted to personal preferences. KUT also has a crossfader reverse function (hamster switch).

### HIGH-SPEED 8 IN/6 OUT USB AUDIO INTERFACE

With the integrated audio interface, with excellent sound quality in 24-bit/96 kHz, incoming signals from a turntable, CD player or even the combined master output can be recorded via USB. This means that your mix can be directly recorded onto PC & Mac. KUT can also be used as a hardware mixer with DVS systems that allow for freely configurable audio interface support.

### CLASSIC CONSTRUCTION WITH A VISUALLY SEPARATED PANEL LAYOUT

The 2-channel layout with 3-band EQ and switchable modes (classic/isolator) has a very clear design and is generous in its dimensions. An additional AUX/MIC channel with combined XLR/6.3mm jack socket plus 3.5mm mini jack input gives the option of connecting a microphone or another line source. 2 headphone outputs (6.3mm & 3.5mm) are located on the front panel. The high-retention USB 2.0-port has proven to be particularly resistant and ensures a stable cable connection. KUT was designed with an oldschool look out of brushed champagne-gold & black aluminium. The fader section is clearly separated visually on the faceplate.

### IN COOPERATION WITH BPM SUPREME

With any purchased KUT the DJ record pool adds a 90 days Premium Membership with a value of 60 \$ for their huge audio & video library - contending latest releases directly received from the record labels.

### KUT

Digital 2-channel Battlemixer with an integrated innoFADER for precise cutting  
Dynamic FX Section with 7 combined effects allows for creative remixing possibilities  
High-Speed 8 In/6 Out USB Audio Interface for recording purposes and digital connectivity

### FEATURES

Digital 2-channel battle mixer with classic design, including a dynamic effect unit  
Developed for turntablists and scratch artists  
innoFader with non-contact technology for precise cutting
