MIX ON ANYTHING!

As well as PC/Mac and Android compatibility via USB/OTG, MIXON 4 is able to connect iOS* devices with a Lightning connection, while simultaneously charging your device. For the first time it is possible to place an iPad PRO (12.9") into the docking station and experience the raw performance on up to four decks.

COLOUR-CODED PAD PERFORMANCE SECTION INCL. PITCH PLAY

With the 16 RGB, velocity-sensitive drum pads you can trigger powerful modes as Hot Cue, Loop Roll, Sampler, Slicer, Flip* and Cue & Slicer Loop modes.

Improve your finger drumming skills in the touch-sensitive Sampler mode, which determines the volume by how hard you trigger a pad.

The multi-coloured, backlit LED pads give you instant feedback about the active mode and reflect the colour-coded cue points in the software.

The all-new Pitch Play* mode allows for playful and creative live remixing of cue points at different tones and pitches.

SLIP & LOOP

With SLIP mode activated, the playing track can be manipulated with loops or scratches without interrupting the flow of the music. The track position continues in the background, jumping to its current position once the manipulation is over. You can also set perfect auto loops with the push of a button in the dedicated LOOP section. The new LOOP length LED bar conveniently shows the current beat length which can be easily selected via an encoder.

A TIDY MIXER FOR A TIDY MIX!

The sturdy 4-channel mixer gives you high-quality audio processing and an intuitive club-ready layout with individual signal meters on each channel allowing for comfortable gain mixing. The linefaders are precise and the assignable crossfader was optimized for fast cuts. The metal shafts for effects, filter, EQ and gain are tightly bolted for confident and stable mixing sessions.
